Reading Comprehension

Many people today are very aware of health and fitness. They are changing their eating habits and getting more exercise. They are eating food with less fat. They are also joining health clubs to work out, or sports clubs to play tennis, etc. In addition to the increase in members at sport and health clubs, there is a lot of interest in endurance tests, such as the marathon_ a 26 mile running race_ and the triathlon_ a race combining running , swimming, and bicycling. Businesses are aware of the changes in people's lifestyles and health awareness. In their products and advertisements, they are trying to appeal to health –conscious people. Beautiful models in perfect shape are selling consumers diet sodas and low-calorie cereals. Soda companies and coffee and tea manufacturers are making caffeine-free drinks, and the word " natural" appears on everything from frozen food to cosmetics. Even fast-food restaurants are responding to this new interest in fitness. There are now salad bars at restaurants like McDonald's and Burger king. How long will this fitness craze last? No one knows, but doctors and health officials hope it is here to stay.

The race involving three activities is called the

- 1) triathlon
- 2) marathon
- 3) 26-mile race
- 4) endurance race
